

Match Rating Descriptions

Colour matches are evaluated at eye level, held at arms length in a light booth using D65 Daylight.

Solid Colours

Rating	Description
5	Is an excellent match. The PVC sample virtually disappears on the face of the board/laminate.
4	Is a very good match in both colour and tone.
3	Is a good match in both colour and tone.
2	Is an OK match in both colour and tone.
1	Is an acceptable match but customer should evaluate based on their individual requirements.
0	Is a very poor match and should be avoided.

Woodgrains / Patterns

Rating	Description
5	Is an excellent match. The print design and colours allow the PVC sample to virtually disappear on the face of the board/laminate.
4	Is a very good match.
3	Is a good match. Either the print design or the colour are slightly off but overall blend well with the board/laminate.
2	Is an OK match.
1	Is an acceptable match. Both the print design and the colour are slightly off. The customer should evaluate based on their individual requirements.
0	Is a very poor match and should be avoided.

Please note that laminate matches that are rated a 2 or less, will be improved on the next production run if possible.
