

### Match Rating Descriptions

Colour matches are evaluated at eye level, held at arms length in a light booth using D65 Daylight.

#### Solid Colours

Rating	Description
<b>5</b>	Is an excellent match. The PVC sample virtually disappears on the face of the board/laminate.
<b>4</b>	Is a very good match in both colour and tone.
<b>3</b>	Is a good match in both colour and tone.
<b>2</b>	Is an OK match in both colour and tone.
<b>1</b>	Is an acceptable match but customer should evaluate based on their individual requirements.
<b>0</b>	Is a very poor match and should be avoided.

#### Woodgrains / Patterns

Rating	Description
<b>5</b>	Is an excellent match. The print design and colours allow the PVC sample to virtually disappear on the face of the board/laminate.
<b>4</b>	Is a very good match.
<b>3</b>	Is a good match. Either the print design or the colour are slightly off but overall blend well with the board/laminate.
<b>2</b>	Is an OK match.
<b>1</b>	Is an acceptable match. Both the print design and the colour are slightly off. The customer should evaluate based on their individual requirements.
<b>0</b>	Is a very poor match and should be avoided.

Please note that laminate matches that are rated a 2 or less, will be improved on the next production run if possible.
